Delphinium Seed

Pacific Strain, per Packet - \$1.00

Special: 2 Packets for - - 1.01

Wrexham Strain, per Packet - .50

Special: 2 Packets for - - .51

Photo shows size of individual florets taken from immense spikes covered with scores of such florets.

The Pacific Strain is pronounced by experts to be the most striking advance in Delphinium hybridizing in recent years, and has brought fame to its originator, Mr. Reinelt. We were fortunate in securing hand-pollenized seed of this strain for the production of many of our seed producing plants. We are offering seed of this strain for the first time this year. These fine Delphiniums will add much beauty to your garden. Many of the florets are very large and exquisitely beautiful. We predict a great future for this strain.

The Wrexham Strain produces a large proportion of very superior plants from seed. They produce tall, well shaped bloom spikes with very large florets, many of them being double. The coloring is extremely beautiful with wonderful and varied combinations of delicate shades, blue, lavender, white, cream, silver, dark purple.

Plant the seed either in early spring or mid-summer,

in flats filled with fairly rich soil. Cover with ¼ inch sifted soil. Cover with either cloth or glass frame, glass preferred. If glass frame is used, place a single sheet of newspaper directly under the glass, not resting on the soil. This shades the soil and helps to retain the moisture. Keep quite moist. Remove shade gradually.

When the seedlings have 3 or 4 leaves transplant a foot apart. Do not transplant during a hot dry spell. If seeds are planted in summer, the seedlings should be transplanted into a cold frame for the winter.

It takes a little longer for Delphinium Seed to germinate than Pansy Seed, but they should come if the seed is fresh. The fresher Delphinium Seed is, the better it will germinate, so mid-summer sowing is recommended.

Delphiniums have two distinct blooming seasons, sometimes three. The blooms should not be allowed to go to seed to secure best results. It is well to cut the plants back after a blooming season. Bone meal in moderation is good but not too close to the plants.

King Alfred, the most popular daffodil, double-nose bulbs per 100, \$8.00.

Grape Hyacinths, large bulbs per 100, \$3.00; medium per 100, \$2.00.

Dutch Iris: Wedgewood, light blue; Imperator, dark blue; Theo. de Bock, bronze; White Excelsior. Any of these per 100, \$4.00.

English Iris: King of the Blues, Bulbs per 100, large \$4.00; medium, \$2.40; small, \$1.60.

10 at eighth of 100. 1000 at 8 times 100. 1c sale does not apply to daffodils, hyacinths and Iris.

Matilija (Romneya Coulteri). A wonderful perennial producing large white flowers with orange center all through the summer. The flowers are of delightful fragrance and are delicately fluted and frilled. They are nearly six inches across and borne on strong stems from 4 to 8 feet tall. A fine cutflower or for landscape use. Strong roots, \$1 each. Special, 2 for \$1.01

Beauty Bush (Kolkwitzia amabilis) Of all the flowering shrubs, this is one of the most graceful and beautiful. Covered in May with a profusion of small bell-shaped pink flowers. As a specimen bush for the lawn we have seen nothing to equal it. In a very few years it will grow to a height of 10 feet or more. Even long after blooming, it is a bush of great beauty.

1 strong bush for \$1.00; Special, 2 bushes for \$1.01

While small tulip bulbs may do well in some climates, we do not recommend them generally. We often advise the planting of small Gladiolus bulbs but with tulips the rule is just the reverse. In Tulip bulbs, the bigger the better. So be sure to try some of those we list in Large size, or better yet, in Top size.

ONE CENT SALE—DOUBLE COUNT

Double Count for a Cent extra on each item of cash orders if Coupon is sent us with the order any time before issuance of our fall price list.

Send us a cent extra on each item ordered and we will give you double count on those items. This offer applies to all Bulbs and Seeds except where otherwise stated. All offers herein are subject to prior sale. Seeds are postpaid. Bulbs are priced f. o. b. Canby.

We pay boxing and packing, you pay expressage. Please designate second choice and whether money should be returned for shortage, if any; otherwise we may substitute with similar or better varieties.

Please do not send Bulb orders which total less than \$2.00.

DOUBLE COUNT COUPON No. 2

Good for double count for a cent extra on each item in 1c sale.

DOUBLE COUNT COUPON No. 1

Good for double count for a cent extra on each item in 1c sale.

In the following varieties we offer small bulbs, about $\frac{3}{4}$ to 1 inch dia., at \$1.60 per 100, or \$11.20 per 1000, and very small bulbs sometimes known as planting stock at \$12.00 per bushel; Albino, Allard Pierson, Afterglow, Baronne de la Tonnaye, Bacchus, Blue Aimable, Bronze Queen, Centenaire, Clara Butt, Ellen Willmott, Faust, F. Tulip bulbs are not in the 1 cent sale. Tulips are priced f. o. b. Canby except in the following:

SPECIAL INTRODUCTORY OFFER

We will send you postpaid 10 Large size Tulip bulbs for \$1.00 or 10 Top size Tulip bulbs for \$1.25, each bulb to be separately labeled. In other words, this collection will include a bulb each of 10 excellent varieties, and will serve as a guide when you place an order next year. You may have six of these collections in Large size bulbs for \$5.00, or six of the collections in Top size bulbs for \$6.00. These will be sent postpaid, but if you are placing an order for other bulbs priced f. o. b., then these may be included in the package and we will give overcount somewhere in your order sufficient to more than cover the transportation on these collections. We are anxious that you give these Large and Top size bulbs a good trial for we feel that you will be well pleased with them. And you will be showing them to your friends and neighbors. And that means that our business will continue to grow, as it has through the many years of our bulb growing.

Be sure to have all Tulip orders reach us on or before October first.

LILY BULBS

(Not in 1c Sale)

Lilies are increasing very rapidly in popularity. No garden is complete without a good representation of these beautiful flowers.

Please send all Lily orders to reach us on or before November first. However, we send out Regals all through the winter. The earlier all orders can be sent us the more certain we will be of having the stock to fill them.

The size of a lily bulb is measured in inches around the bulb. Bulbs are priced f. o. b. Canby. The 1c sale does not apply to lily bulbs.

Depth to plant lily bulbs: Regal, 6 to 8 inches; Elegans, Willmottiae and Formosanum, 5 to 6 inches; Henryi, 8 to 10 inches; Pardalinum and Tenuifolium, 4 to 5 inches; Speciosum, 9 to 10 inches; Tigrinum, 8 inches; Umbellatum, 4 to 6 inches. Plant very soon after you receive the shipment.

Item means the quantity of a variety in a column: The column under L shows the number of Large bulbs for 50c, the column under Med. shows the number of Medium bulbs for 50c, the column under S shows the number of Small bulbs for 50c, and the column Blts. shows the number of bulblets for 50c, of the variety on the same line. For example: If you order small bulbs of Picardy you would double the 80 and your order would call for 160 small Picardy for 51c. This is new stock, 1939 grown, and is for fall delivery.
